DETAILED ACTION

Election/Restrictions

1. This application is in condition for allowance except for the presence of claims 20-31 to an invention non-elected without traverse. Accordingly, claims 20-31 have been cancelled.

Allowable Subject Matter

2. Claims 1-19 are allowed.
3. The following is an examiner's statement of reasons for allowance: Independent claim 1 recites, inter alia, a method for mounting a flexible substrate including forming a first rigid support substrate with trenches; forming a flexible substrate overlying the first rigid support substrate; and injecting adhesive into the trenches. Furthermore, independent claim 11 recites, inter alia, a method for mounting a flexible substrate including forming a first rigid support substrate; introducing a preformed pattern of spacers overlying the first rigid support substrate, with spacer channels between the spacers; forming a flexible substrate overlying the preformed pattern of spacers; and injecting adhesive into the spacer channels. The prior art does not teach or fairly suggest the above limitations in combination with other claim limitations nor would it be obvious to modify the references of record so as to fabricate an LCD device of the instant application.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
